

Interactive Departmental Examination Prototypes Now Online

Grade 12 students and teachers across the province now have access to online math and science study tools to assist them in preparing for final exams. These tools consist of online departmental exam prototypes, comprehensive randomized tests and short unit tests. These assessments are computer scored and provide instant feedback to the student. These study tools are available for:

- Biology 30, Chemistry 30, Physics 30
- Foundations of Mathematics 30, Workplace and Apprenticeship 30, Pre-Calculus 30

To access these tools, [click here](#).
